

HookLoda HL210 – Technical details

MODEL	HL210
Gross weight	Country dependent
Tare weight	ca. 5500kg
Maximum hooking load	21000kg
Maximum tipping load	21000kg
Drawbar load	3500kg (4000kg)
Hook height	Country dependent
Hook tower	Telescopic
Hook stroke	1200mm
Sprung suspension capacity	Country dependent
Main cylinders	2 units
Oil requirement	25,5 litres
Minimum draft requirement	102kW (140HP)
Hydraulic pressure required	200 bar
Total length	7810mm
Maximum width (standard wheels)	2550mm
Standard wheels	560/60 R22,5
Connections to tractor	3 x double acting
Standard	Country dependent
